INTRODUCTION

The present volume constitutes the 1927 edition of the Crocker-Langley Directory of San Francisco. The work embodies a complete epitome of the civic, [redacted] d activities of the municipality. includes all of the essential feat to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are cons ant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

The several departments of the Directory are arranged in the follow order:

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 11 to 33, and contains data concerning State, City and County Governments, Federal Government officers in the city, the courts, commercial organizations, art societies, churches (denominational and miscellaneous), exchanges, courts, building exchange and associations, institutes and societies, labor unions, libraries, military and naval organizations, public schools, secret societies, etc.

THE STREET AND AVENUE GUIDE is embraced in pages 34 to 57; in this feature the names of all streets and avenues are arranged alphabetically, giving beginning and ending and line of general direction. In the case of the most important streets and avenues, intersecting streets and avenues are shown with the number at the cross streets or avenues indicated.

THE BUYERS' GUIDE occupies pages 65 to 216; this section of the Directory, printed on tinted paper, includes numerous advertisements of the leading manufacturing, business and professional interests of San Francisco. They have been carefully grouped by departments and are indexed under classified headings and otherwise in various parts of the Directory. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. In a bustling, manufacturing city like San Francisco the need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the city Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations covers pages 217 to 2304.

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 2305 to 2585, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

THE SAN FRANCISCO CHAMBER OF COMMERCE

The San Francisco Chamber of Commerce stands today not as a new organization, not as the successor of old ones, not founded upon wreckage, not the result of spasmodic and intermittent organization, but as a consistent and potential civic factor, dating back to its founding, it has kept pace with the times; it is an old and honorable body, and has pride in its heritage, as well as in its vision of future possibilities. It is essentially democratic—as any civic and commercial organization must be. It has wisely and constantly widened its horizon, and has been helpful in every phase and factor in city life. It has cultivated every outlying nook and corner of the municipal corporation, that it might be known of all citizens that the Chamber of Commerce existed for the general good. It has maintained that hospitality and courtesy, in an organized and distinct fashion, that are community assets. It has developed service. The function of the Chamber of Commerce is this: To promote the Welfare of San Francisco. It inclines to the theory that people who are brought to sober thought, and who are wisely led, and whose public conscience is quickened, will make a better citizenship. The Chamber of Commerce is a public forum. It is a clearing-house. It is a business organization, a civic body, and a social club. It seeks to put into men the very last thought and zeal and motive, that the outcome may represent the sum total of achievement. It seeks to be a leader only in that it masses the groups of individual leaders, and may perhaps make cumulative the value and strength of their leadership.

DIRECTORY LIBRARY

Copies of the latest editions of directories of other cities throughout the United States and Canada are on file in the office of the publishers, Rooms 701-705, at 604 Mission Street, where they are accessible for reference. A cordial invitation is extended to all subscribers to make frequent use of this library.

MUNICIPAL PUBLICITY
ADVERTISING SAN FRANCISCO

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educatinal center. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers place copies of this issue of the Directory in directory libraries, which are maintained in all the larger cites of the country, where they are readily available for reference use by the public. There they serve as perpetual advertisments of San Francisco, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

FORESTERS OF AMERICA

The objects of this order are to unite fraternally all white males of good character between the ages of 18 and 50 years, to aid its sick members, bury its dead, give relief to their widows and orphans, to find employment for unemployed members, and all other benevolent purposes. There are one hundred and fifty Courts in this State, with a membership of 18,000, also auxiliaries, which are known as Knights of Sherwood Forest, Companions of the Forest of America and Junior Courts

The Supreme Head of the Order is known as the Supreme Court and was organized in Minneapolis on August 15, 1889, they having on that day seceded from the Ancient Order of Foresters, whose Supreme Head is in England. The Supreme Court meets biennially and the next session will be held in New York City, on the last Tuesday in August, 1927

The Supreme Court comprises 1,865 Courts, with a total membership in the United States of 241,399 members

The Grand Court of California was instituted on November 20, 1889, and the officers for the year 1927-1928 are as follows:

UNITED ANCIENT ORDER OF DRUIDS

The order is perhaps the oldest. History speaks of it as an Order of Priests and learned men among the ancient Celts—the race of people who left the parent hive in Asia at a very early period and settled in Western Europe. For many centuries preceding the Christian era and at the time of the invasion of the Romans, the Druids was the most prominent and powerful order; they presided over the religious celebrations and were the judges, legislators, philosophers, physicians and instructors of their people. The order first assumed its present charter in England in the year 1771, and was introduced into America in the year 1830. It is a moral, social and beneficial society. Its principles and teachings are derived from ancient Druidism and are founded on reason and sound morality; they do not conflict with any religious system and are perfectly compatible with the laws of any civilized country. In becoming Druids, members are still free men. It is a secret society simply for the protection against abuse of its beneficial provisions. The order is firmly established in all countries inhabited by the Caucasian race, and is the only order that has an International Grand Lodge which meets in quinvuennial session. Its objects are: To unite men (irrespective of nation, tongue or creed) for mutual protection, to cultivate social virtues, to encourage in business, to assist in obtaining employment, to foster among its members the spirit of fraternity and good fellowship, and by a well-regulated system of dues, provide for the relief of sick and destitute members, the burial of the dead and the protection of widows and orphans

POLK'S
STREET AND AVENUE GUIDE
OF SAN FRANCISCO
R. L. POLK & CO., OF CALIFORNIA, Publishers

COMPILED FROM OFFICIAL SOURCES

EXPLANATIONS

According to the method adopted in this city for numbering buildings, Market Street is the starting point for numbers on all streets running from it in a northerly, southerly or westerly direction, and the water front for all streets running therefrom in a westerly or southwesterly direction. The numbers on all streets not commencing at Market Street or the water front run in conformity with the numbers of the main streets running parallel with them, except in the case of a few streets which are numbered in an irregular manner.

On all streets between the water front and Central Avenue the even numbers are on the right-hand side, and the odd numbers on the left, starting from the point of beginning. Beyond Central Avenue most of the streets have been numbered in a contrary manner. One hundred numbers, or as many thereof as are necessary, are allotted to each block bounded by main streets; for instance, Montgomery Street commences at Market, and the main streets crossing as you proceed north are Sutter, Bush, Pine, etc. Therefore any numbers between 1 and 100 will be found on the right or left-hand side of the street between Market and Sutter, between 100 and 200 from Sutter to Bush, between 200 and 300 from Bush to Pine.

In the streets which are numbered, a dash (——) indicates that the cross street does not extend to that side; (o), the street borders on the bay, or public park, cemetery, etc, consequently there are no buildings on blocks thus designated; (c), the street is not opened through the block, or is interrupted in its course at that point by a public square, cemetery, etc.; (e), end of street.

DIRECTORY AND REFERENCE

MEDIA

The reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is passive while the buyer is active. On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

Th directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a sinificant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

GRUSS AIR SPRING

Figure What Road Vibration Costs!

Take the motor out of your automobile. Put it on a solid foundation. Let it run.
You'll have no starter or generator trouble.
You'll have no expensive repairs to make.
You'll get years of service.
For it isn't the running, but the punishing vibration of the road that makes your upkeep high.
And it is this unceasing road vibration that Gruss Air Springs absorb.
Figure what road vibration costs you. Then figure how much cheaper it would be to install Gruss Air Springs.

PRODUCTS

Air Compressors; Air Receivers and Aftercoolers; Oil, Gas and Steam Engines; Steam Condensing Plants; Rock Drills; Drill Steel; Drill Steel Sharpeners and Oil Furnaces; Drill Mountings and Quarry Bars; Air and Steam Hoists; Hose and Couplings; Centrifugal and Direct-Acting Steam Pumps.

AIR AND GAS COMPRESSORS

Ingersoll-Rand Compressors are built in sizes ranging from seven cubic feet to over ten thousand cubic feet of free air per minute and for any pressure as belt; direct-connected to electric motor, oil or gas engine; steam and turbo driven units. Its standard line of compressors includes the following machines, but the company is prepared to build compressors to meet special conditions to service.

Electric Drive Air Compressor

Type Twenty Portable Compressors are built in six sizes having capacities of 60, 91, 160, 210, 250 and 309 cu. ft. per minute. Each size is driven by a four-cylinder, four-cycle tractor type gasoline engine, or either D. C. or A. C. electric motor of standard design.

There are many styles of mountings such as steel wheels and axles; wooden wheels with rubber tires; spring mounting with wooden wheels and rubber tires; trailer; skids; or without running gear for mounting on a motor truck. The two smallest sizes are also furnished complete as a Ford Truck Outfit.

Type 20 Portable

OIL ENGINES

Ingersoll-Rand Type "PO" Oil Engines are of the horizontal single-cylinder, single-acting, direct-injection type operating on the four-stroke cycle and available in 50, 100 and 150 B.H.P. sizes. Type "PR" Oil Engines are of the vertical three or more cylinders, single acting, direct injection type operating in the four-stroke cycle and available in from 105 to 1,200 B.H.P. sizes.

Type "PO" Oil Engine

ROCK DRILLS

Ingersoll-Rand Rock Drills are manufactured in a great variety of sizes, types and styles from the small 21½-lb. BAR-33 "Jackhamer" for light drilling around industrial plants to the 125-lb. K-64 Submarine Drill—and everything in between.

There need never be any uncertainty as to the performance of an Ingersoll-Rand drill. Every one has demonstrated its ability to do the work for which it was designed before you get it. Every one is thoroughly dependable.

BCR-430 "Jackhamer"

CAMERON PUMPS

Cameron pumps are built in direct-acting or centrifugal types and in sizes suitable for every fluid handling problem. They are simple in design, sturdy in construction and every pump is thoroughly tested so as to exactly fit to meet the conditions for which it was sold.

FERNAC
SCHOOL OF
LANGUAGES
NATIVE TEACHERS
DIRECT METHOD

Some of the Many Reasons Why You Should Study Languages at

THE FERNAC SCHOOL:

It uses the direct method.

It eliminates all translation, giving the pupil 60 full minutes of the language studied, not 20 or 30.

The languages are taught only by native teachers who understand how to present their subject in a clear and forcible way.

The pupil is taught to speak the language, not only to read and write it.

It stresses correct pronunciation.

CITY DIRECTORY

How many times have you heard that trite statement? When in doubt about the location of an address; the proper spelling of a name; a correct address; in fact anything pertaining to your city or any other, the

CITY DIRECTORY

is your trump card. A few moments spent and a few pages turned, presto—the CORRECT information is yours. Use the Directory. Add to your efficiency by being sure you're right.

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.
¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.
¶ New customers must be obtained to replace those who discontinue because of reasons beyond their control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.
¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.
